State Vehicle Report Purpose and Explanation

Purpose of the State Vehicle Report

The State Vehicle Report is submitted to the Legislature in accordance with UCA 63A-9-402, by the Division of Fleet Operations (DFO). This report contains vehicles defined by UCA 63A-9-101.

(6) (a) "Motor vehicle" means a self-propelled vehicle capable of carrying passengers.
(b) "Motor vehicle" includes vehicles used for construction and other non-transportation purposes.

The State Vehicle Report contains a list of all vehicles that are documented, and currently have an “Active” status. The report is generated using data in DFO’s Fleet Management Information System, and includes all agencies as defined in UCA 63A-9-101.

(1) (a) "Agency" means each department, commission, board, council, agency, institution, officer, corporation, fund, division, office, committee, authority, laboratory, library, unit, bureau, panel, or other administrative unit of the State.
(b) "Agency" includes the State Board of Education, the Office of Education, each Applied Technology Center, the Board of Regents, the Institutional Councils of each higher education institution, and each higher education institution.
(c) "Agency" includes the legislative and judicial branches.

Explanation of Vehicle Count

In accordance with UCA 63A-9-402 (2)(a)(b) the Division of Fleet Operations is required to submit a State Vehicle Report on, or before November 1 of each year, disclosing the total count of vehicles in the State of Utah fleet. Legislative sub-committees throughout the state have allowed **13** expansion vehicles for FY2007. The total vehicle count as of October 29, 2007 is **7411**.

The movement of vehicles in and out of the fleet as they are purchased and sold is an on-going process. For this reason the vehicle count can fluctuate from one time period to another. When a vehicle count is compared day-to-day, or month-to-month, the count often varies. A snapshot of the fleet can be easily taken, allowing analysis of all vehicles in the fleet management information system. With that in mind, the end of October is traditionally the best time of the year to take a vehicle count because the fleet is at its most static point.

Over the past year, DFO has needed to make some adjustments to the method in which vehicles are counted within a select number of departments. As of July 1, 2007, House Bill 426 created The Department of Veterans’ Affairs, was a division under the National Guard. Vehicles that were assigned to the National Guard under the division are now counted with the Department of Veterans’ Affairs count.

DFO modified the method Utah College of Applied Technology (UCAT) reported their vehicle counts in the past. UCAT has typically reported as an entire Agency, DFO is now reporting those vehicle counts directly under each ATC. For example Ogden Weber Applied Technology College (OWATC) vehicles will be counted within their agency. This modification has allowed a more detailed view of each State of Utah agency.

2007 House Bill 150 Item 42 states that DFO "may also acquire motor pool capital assets formerly in the Department of Natural Resources motor pool internal service fund as necessary to facilitate consolidation." Vehicles previously owned by the Department of Natural Resources will now show in this report under a FULL service lease status with DFO.

A consolidation of the Medicaid Eligibility System has occurred between the Departments of Health and Workforce Services. The consolidation included a transfer of employees and 10 vehicles to Workforce Services.

Active "Already Replaced" (AR) Vehicles

Some agencies maintain and utilize vehicles in an "Active Replaced" (AR) status to supplement seasonal or peak demand periods in agency operations. These vehicles have been replaced by Fleet Operations, and will be sent to state surplus once the seasonal need has concluded. DFO uses the AR status to ensure vehicles are not replaced twice.

Specialized Equipment Counts reported to DFO by DAS/Division of Facilities and Construction Management (DFCM)

Rule R27-5-1(1) states: “This rule is established pursuant to Subsection 63A-9-401(1)(b), which requires the Division of Fleet Operations (DFO) to establish one or more fleet automation and information systems for state vehicles.”

DFO has approved DFCM’s separate Fleet Management Information System. Equipment tracked in this separate information system, is typically used on a campus type environment, for facility upkeep and maintenance.

DFCM has reported the following vehicles to DFO.

Equipment Classes Included/Excluded

The Division of Fleet Operations allows the tracking of non-vehicle fleet equipment within the fleet tracking system, allowing the state to gain the greatest value from existing software resources. Equipment being tracked in the system, which does not fall under the definition of a vehicle, is tracked by DFO and is not reported in the State Vehicle Report. The following charts identify which classes of vehicles are included and which are excluded from this State Vehicle Report.
