## **State Vehicle Report Purpose and Explanation**

### **Purpose of the State Vehicle Report**

The State Vehicle Report is submitted to the legislature in accordance with UCA 63A-9-402, by the Division of Fleet Operations (DFO). This report contains vehicles defined by UCA 63A-9-101(6) which states:

- (a) "Motor vehicle" means a self-propelled vehicle capable of carrying passengers.
- (b) "Motor vehicle" includes vehicles used for construction and other non-transportation purposes.

The State Vehicle Report contains a listing of all vehicles currently in an "active" status. The report is generated using data in DFO's fleet management information system, and includes all agencies as defined in UCA 63A-9-101 (1) which states:

- (a) "Agency" means each department, commission, board, council, agency, institution, officer, corporation, fund, division, office, committee, authority, laboratory, library, unit, bureau, panel, or other administrative unit of the State.
- (b) "Agency" includes the State Board of Education, the Office of Education, each Applied Technology Center, the Board of Regents, the Institutional Councils of each higher education institution, and each higher education institution.
- (c) "Agency" includes the legislative and judicial branches.

### **Explanation of Vehicle Count**

UCA 63A-9-402 (2)(a)(b) requires the Division of Fleet Operations to submit a State Vehicle Report to the governor and legislative fiscal analyst, on or before November 1 of each year, disclosing the total count of vehicles in the State of Utah fleet.

Vehicles move in and out of the fleet each day as they are replaced or involved in accidents. For this reason the vehicle count can fluctuate daily. With that in mind, the end of October is the best time of the year to take a vehicle count because the fleet is traditionally at its most static point.

### **Active "Already Replaced" (AR) Vehicles**

Some agencies maintain and utilize vehicles in an "Active Replaced" (AR) status to supplement seasonal or peak demand periods in agency operations. These vehicles have been replaced by Fleet Operations, and will be sent to the Utah State Agency for Surplus Property (USASP) once the seasonal need has concluded. AR vehicles are included in the vehicle totals for official department counts in the State Vehicle Report. DFO uses the AR status to ensure vehicles are not replaced twice. Examples of agencies with a need of AR vehicles would include but are not limited to: the Department of Natural Resources using vehicles during seasonal park operations, and peak summer construction vehicle demands for UDOT.

## Utilization Audit of State Fleet Vehicles

DFO understands that agencies need their vehicles to carry out agency missions. However, vehicles that have not recorded usage for several years or vehicles that record minimal usage vehicles could be pooled or removed from the state fleet to provide a more cost efficient fleet.

To accurately analyze which vehicles are candidates for removal from the state fleet, DFO departed from our historical 625 miles per month usage minimum, and has adopted a more relevant model which compares vehicles with similar usage and location to each other.

As a result of the new model and discussions with agencies, 58 vehicles have been removed from the state fleet since it was implemented.

## Vehicle Totals by Agency

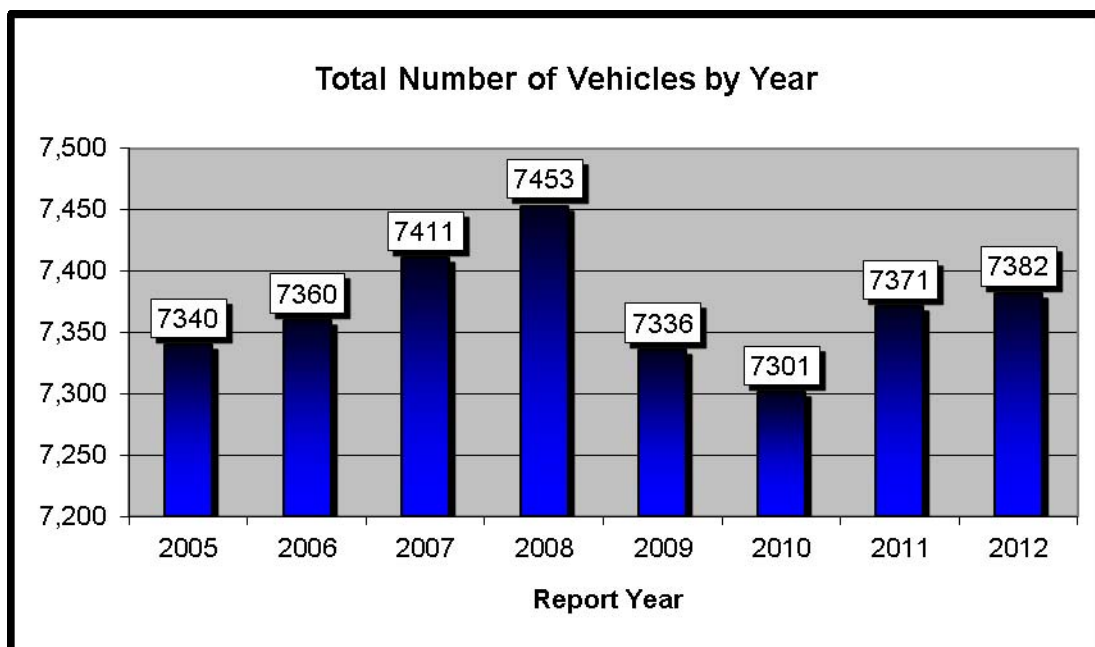

The table below shows state vehicle counts in 3 categories (Active Vehicles, Active Already Replaced Vehicles, and Total Vehicles). The Total Vehicle count includes all seasonal AR vehicles.

**Equipment Classes Included/Excluded**

The Division of Fleet Operations allows the tracking of non-vehicle fleet equipment within the fleet tracking system, which provides the state to gain the greatest value from existing software resources. Equipment being tracked in the system by DFO, which does not fall under the definition of a vehicle, is not reported in the State Vehicle Report. The following charts identify which classes of vehicles are included and which are excluded from this State Vehicle Report.
